

# ARCHITECTURE IN EUROPE: GREECE & ROME

The *Kappe Library Guides* identify general resources on broad topics to help researchers begin their work. Individual projects and practitioners are avoided; guides, indexes and general introductions are preferred to specialized works.

Book citations that include a call number can be found at the Kappe Library; other books are identified by author, title and date. Magazine articles are selected from the *Avery Index* and the *Art Index* databases; to identify which are available at the Kappe Library, see the *Periodicals In the Collection* reference.

Web versions of this and all other Guides are available at [http://www.sciarc.edu/portal/about/resources/library\\_documents.html](http://www.sciarc.edu/portal/about/resources/library_documents.html)
