

ARCHITECTURE IN NORTH AMERICA: 15TH CENTURY TO 20TH CENTURY

The *Kappe Library Guides* identify general resources on broad topics to help researchers begin their work. Individual projects and practitioners are avoided; guides, indexes and general introductions are preferred to specialized works. Book citations that include a call number can be found at the Kappe Library; other books are identified by author, title and date. Magazine articles are selected from the *Avery Index*, Art Full Text and JStor databases. Where full-text articles are available on-line, the article title is [hyperlinked](#) to the full text. Web versions of this and all other Guides are available at http://www.sciarc.edu/portal/about/resources/library_documents.html. Submit questions and suggestions to the library manager directly at kevin@sciarc.edu

ARCHITECTURE GUIDES

Architecture guides are often the only resource for factual information about some buildings or regions. There are architecture guides in print for many U.S. states, which are cataloged in the NA730 section. Many U.S. cities, large and small, also have their own guides (NA735 section).
