Open Season at SCI-Arc
4-7 PM, Wednesday, March 14, 2012
in the North Gallery

Open Season is a career networking event to connect SCI-Arc alumni and our professional partners in the Architecture and Design fields to SCI-Arc's current students. Hosted by the SCI-Arc Alumni Council's Open Season Committee, these drop-in events invite potential employers to observe, and potentially recruit, SCI-Arc students as they showcase portfolio samples and studio work for public review. Alumni and staff will be on-hand to facilitate introductions between students and firms.
