

ARCHITECTURE IN AUSTRALIA & THE PACIFIC ISLANDS

The *Kappe Library Guides* identify general resources on broad topics to help researchers begin their work. Individual projects and practitioners are avoided; guides, indexes and general introductions are preferred to specialized works.

Book citations that include a call number can be found at the Kappe Library; other books are identified by author, title and date. Magazine articles are selected from the *Avery Index* and the *Art Index* databases; to identify which are available at the Kappe Library, see the *Periodicals In the Collection* reference.

Web versions of this and all other Guides are available at <http://sciportal.sciarc.edu> Submit questions and suggestions to the library manager directly at kevin@sciarc.edu

NOTE: In 1991 archaeologist Roger Green proposed dividing Oceania into "Near" and "Remote," to reflect the stages of human habitation in the Pacific, as an alternative to Louis d'Urville's 19th century "Micronesia" / "Melanesia" / "Polynesia" subregions.

ARTS & ARCHITECTURE OF THE PACIFIC

- Buchanan, "Pacific Rim and planetary culture," *Architectural Review*, August 1991
 Crouch, *Traditions in architecture: Africa, America, Asia, and Oceania*, NA-208 .C76 2001
